**Izu Peninsula** (伊豆半島), lying in the east-central part of Japan, juts out into the Pacific Ocean, with Sagami Bay on the east and Suruga Bay on the west. Owing to its rolling verdant hills, numerous hot springs, sunny seaside resorts and well-appointed accommodations, both western and traditional, the peninsula enjoys worldwide fame as one of the most representative year-round tourist areas in Japan.

## Access:

The three stations, Atami, Mishima and Numazu on JR Tokaido Line form the interurban transportation gateways to Izu. Originating in Tokyo, JR Tokaido Line splits at Atami into Izu Kyuko Railway and Izu

Hakone Railway operating along the east coast and center respectively. Other parts are covered by a network of bus lines operating frequently from north to south on well-paved roads. In contrast, bus services crossing the peninsula from east to west are limited and not very convenient because they travel over less developed roads through the Amagi Mountains that stretch far down the peninsula.

By car, Izu is easily reached either via National Highway Route 1 or Tomei Express Highway. Using Izu Skyline Parkway and the other toll roads that meander through the mountains and also link with the Fuji-Hakone area, a driving tour of the peninsula is indeed a most enjoyable one.
