

**Let's climb Mt. Fuji and get the mountain climbing certificate!**

Yamanashi Tourism Organization issues "Mt. Fuji climbing certificate" for foreign tourists who have climbed Mt. Fuji. This service started in 2006, and more than 700 certificates have been issued every year.

This year, the design of the certificate was completely innovated. Moreover, certificate acquirer's name and nationality can be shown on our website upon wish.

The language of the certificate can be chosen among 4 languages; Japanese, English, Korean or Chinese.

The applicant must be a non-Japanese, and should present a photograph which proves that the applicant has reached the top of Mt. Fuji.

Every year, Mt. Fuji opens for climbers on July 1<sup>st</sup>, as perilous snow remains above the 5<sup>th</sup> level until the end of June. The alpine plants are in bloom and ready to be enjoyed. Summer on Mt. Fuji is rather short, only lasting until late August.
